Hi Eron,

I'll be out this afternoon through Monday. The FCR looks fine with the following editorial comment: The reference for the FSP vibracore description should be Section 4.4.1 not Section 4.5.1 as stated in the draft FCR.

I'm waiting to see if we get any questions from the TCT before approving, so Hunter will follow up on that front or approve.

If anything else comes up while I'm out, please include Hunter in the communications.

Thank you,  
Madi
